

# KE-DBA-CAPW

## Accesorio base direccionable inteligente - Tapa (Blanca)

### General

---

The innovative Excellence range of intelligent addressable devices offers advanced features for reliability and peace of mind. Coupled with features for ease of installation and maintenance on new fire detection systems, it's a perfect match for exceptional overall performance.

The KE-DBA-CAPW is an Excellence series, detector base cap. It beautifies an unused detector base, protecting the installed loop contacts from tampering and damage when a detector is not fitted to the base.

### Installation

---

The KE-DBA-CAPW fits to an Excellence series base with a simple clip action. It can be easily fitted to a pre-installed base, avoiding the unnecessary rework associated with removing an unused base when it is no longer required in its installed location.

### Detalles

---

- Easy to install with simple "clip" mechanism
- Easy to clean
- Saves rework time on installed, unused bases
